Choose one or two symptoms (physical or mental) which bother you the most. Write them on the lines.
Now consider how bad each symptom is, over the last week, and score it by circling your chosen number.

SYMPTOM 1: 0 1 2 3 4 5 6
..... As good as it could be As bad as it could be

SYMPTOM 2: 0 1 2 3 4 5 6
..... As good as it could be As bad as it could be

Now choose one activity (physical, social or mental) that is important to you, and that your problem makes difficult or prevents you doing. Score how bad it has been in the last week.

ACTIVITY: 0 1 2 3 4 5 6
..... As good as it could be As bad as it could be

Lastly how would you rate your general feeling of wellbeing during the last week?

0 1 2 3 4 5 6
As good as it could be As bad as it could be

How long have you had Symptom 1, either all the time or on and off? Please circle:

0 - 4 weeks 4 - 12 weeks 3 months - 1 year 1 - 5 years over 5 years

Are you taking any medication FOR THIS PROBLEM? Please circle: YES/NO

IF YES:

1. Please write in name of medication, and how much a day/week

.....

2. Is cutting down this medication: Please circle:

Not important a bit important very important not applicable

IF NO:

Is avoiding medication for this problem:

Not important a bit important very important not applicable

Hematologic (Blood/Lymph) No Problems Easy bleeding, easy bruising, anemia, abnormal blood tests, leukemia, unexplained swollen areas. Other: _____

Allergic/Immunologic No Problems Seasonal allergies, hay fever symptoms, itching, frequent infections, exposure to HIV. Other: _____

COVID-19 RISK INFORMED CONSENT

I _____ (patient name) understand that I am opting for Healthcare treatment and I understand that the novel coronavirus, COVID-19, has been declared a worldwide pandemic by the World Health Organization. I further understand that COVID-19 is extremely contagious and is believed to spread by person-to-person contact; and, as a result, federal and state health agencies recommend social distancing. I recognize that this office including all staff at _____ (practice name) and _____ (facility name) are closely monitoring this situation and have put in place reasonable preventative measures aimed to reduce the spread of COVID-19. However, given the nature of the virus, I understand there is an inherent risk of becoming infected with COVID-19 by virtue of proceeding with any healthcare treatment.

I hereby acknowledge and assume the risk of becoming infected with COVID-19 through this Healthcare office, and I give my express permission to proceed. I understand that, even if I have been tested for COVID and received a negative test result, the tests in some cases may fail to detect the virus or I may have contracted COVID after the test. I understand that, if I have a COVID-19 infection, and even if I do not have any symptoms for the same, proceeding with this Healthcare can lead to a higher chance of complication and death. I understand that possible exposure to COVID-19 before/during/after my treatment/procedure may result in the following: a positive COVID-19 diagnosis, extended quarantine/self-isolation, additional tests, hospitalization that may require medical therapy, Intensive Care treatment, possible need for intubation/ventilator support, short-term or long-term intubation, other potential complications, and the risk of death. In addition, after my Healthcare treatment/procedure, I may need additional care that may require me to go to an emergency room or a hospital. I understand that COVID-19 may cause additional risks, some or many of which may not currently be known at this time, in addition to the risks described herein, as well as those risks for the treatment/procedure itself. I have been given the option to defer my treatment/procedure to a later date. However, I understand all the potential risks, including but not limited to the potential short-term and long-term complications related to COVID-19, and I would like to proceed with my desired Healthcare treatment/procedure.

I UNDERSTAND THE EXPLANATION AND HAVE NO MORE QUESTIONS AND CONSENT TO THE PROCEDURE.

I have been offered a copy of this consent form (patient's initials) _____

ACUPUNCTURE INFORMED CONSENT TO TREAT

I understand that I am the decision maker for my health care. Part of this office's role is to provide me with information to assist me in making informed choices. This process is often referred to as "informed consent" and involves my understanding and agreement regarding the care recommended, the benefits and risks associated with the care, alternatives, and the potential effect on my health if I choose not to receive the care. Acupuncture is not intended to substitute for diagnosis or treatment by medical doctors or to be used as an alternative to necessary medical care. It is expected that you are under the care of a primary care physician or medical specialist, that pregnant patients are being managed by an appropriate healthcare professional, and that patients seeking adjunctive cancer support are under the care of an oncologist.

I hereby request and consent to the performance of acupuncture treatments and other procedures within the scope of the practice of acupuncture on me (or on the patient named below, for whom I am legally responsible) by the acupuncturist indicated below and/or other licensed acupuncturists who now or in the future treat me while employed by, working or associated with, or serving as back-up for the acupuncturist named below, including those working at the clinic or office listed below or any other office or clinic, whether signatories to this form or not.

I understand that methods of treatment may include, but are not limited to, acupuncture, moxibustion, cupping, electrical stimulation, Tui-Na (Chinese massage), Chinese herbal medicine, and nutritional counseling. I understand that the herbs may need to be prepared and the teas consumed according to the instructions provided orally and in writing. The herbs may have an unpleasant smell or taste. I will immediately notify a member of the clinical staff of any unanticipated or unpleasant effects associated with the consumption of the herbs.

I appreciate that it is not possible to consider every possible complication to care. I have been informed that acupuncture is a generally safe method of treatment, but, as with all types of healthcare interventions, there are some risks to care, including, but not limited to: bruising; numbness or tingling near the needling sites that may last a few days; and dizziness or fainting. Burns and/or scarring are a potential risk of moxibustion and cupping, or when treatment involves the use of heat lamps. Bruising is a common side effect of cupping. Unusual risks of acupuncture include nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although the clinic uses sterile disposable needles and maintains a clean and safe environment.

I understand that while this document describes the major risks of treatment, other side effects and risks may occur. The herbs and nutritional supplements (which are from plant, animal, and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. I will notify a clinical staff member who is caring for me if I am, or become, pregnant or if I am nursing. Should I become pregnant, I will discontinue all herbs and supplements until I have consulted and received advice from my acupuncturist and/or obstetrician. Some possible side effects of taking herbs are: nausea; gas; stomachache; vomiting; liver or kidney damage; headache; diarrhea; rashes; hives; and tingling of the tongue.

While I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment, I wish to rely on the clinical staff to exercise judgment during the course of treatment which the clinical staff thinks at the time, based upon the facts then known, is in my best interest. I understand that, as with all healthcare approaches, results are not guaranteed, and there is no promise to cure.

I understand that I must inform, and continue to fully inform, this office of any medical history, family history, medications, and/or supplements being taken currently (prescription and over-the-counter). I understand the clinical and administrative staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

I understand that there are treatment options available for my condition other than acupuncture procedures. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, I understand that I have the right to a second opinion and to secure other options about my circumstances and healthcare as I see fit.

By voluntarily signing below, I confirm that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I agree with the current or future recommendations for care. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
